Instructions for downloading Mathematica

Before getting started: You will need 4 GB of space on your hard-drive, and a fast reliable internet connection.

Step 1. Make sure you have a seattlecentral email address.
Your address is: firstname.lastname@seattlecolleges.edu (same as your login name when logging into a computer)
If you do not know your password…

> go to seattlecentral.edu
> Click "current students"
> Click "EAD"

Then you can reset your password.

Step 2. click the following link

https://user.wolfram.com/portal/requestAK/469f08cab2b1e7a85f50e45a83e0681f04004f31

to create an account for the "Wolfram User Portal", and follow the instructions on the screen. Enter your school email address when asked. You will also need to use your email account to validate the account. Once you have an account, you can sign in at any time at:

https://user.wolfram.com/portal/login.html

Step 3. When you are logged in at the "Wolfram User Portal", fill out the Activation Key Request Form. (you may need to click "products and services" first). This will provide you with an Activation Key needed to install Mathematica on your computer.

Step 4. You will see a message, "Your Activation Key Has Been Created". Click "Product summary page" to download the software. (You will also be sent an email with a link for downloading the software as well)

Step 5. At the bottom of the page, select Windows, Macintosh, or Linux, then click "download" to save it to your computer

Step 6. Wait...The compressed file is nearly 2 GB. Once the file is downloaded, install it to your computer.
